- c) **Elbow Pads:** 7"x 7" square shape. 2" thick, made of heavy high quality foam material, covered with a vinyl/rexin type cover. The foam and covering can be attached to a 1/8" metal sheet, 7"x 7" with two threaded bolts 1/4" diameter x 1 3/4" long, welded to the bottom to be able and attach your elbow pads to the table top.
- A line, either painted, upholstered or taped from hand grip to hand grip to establish center of the table will always be used at WAF /AFA tournaments.
- d) **Touch Pads:** 14" long x 4" high x 2" Wide. Made of good quality Touch Pad.
- e) **Placement:** Elbow pads should be set 2" from their respective edge. They should overlap each other by 1/2 to the right of center for a right arm table and overlap each other by 1/2 to the left of center for a left arm table.
- f) **Touch Pads:** Should be on an angle, 5" out from the inside corner of the elbow pad to the inside corner of the pad and 1/2" from its respective edge measured to the outside corner of the pad. Running at an angle towards the hand peg it should measure 2 3/4" from the hand peg to the outside corner of the touch pad.
- If it's for a right arm table, these measurements should be made on the left side of the elbow pad and reversed if it's a left arm table.

For consistency and ease of handling reasons, riser platforms will be built of 1/2" thick plywood, 4" high x 36" wide x 32" deep. They will be notched at the top part, as to fit the table legs on each their respective side, to prevent them from slipping out during competition. Approximately 3" from the top, the notches, on either side will be located.

- 2- Contestants for each weight class will be announced and they will come to the stage to be verified against the draw sheet.
- 3- Contestants' names will be called and they have 60 seconds to come to the table. Failure to appear in 60 seconds, they will be given a loss. They will approach the table, shake hands with their opponent, and then take a grip.
- 4- The grip is palm to palm, grip at thumb, thumb knuckle must be visible. Gripped hands should be level on a plain at the forefingers. Free hand will grip the hand peg provided at the table edge. This arm may or may not touch the table top. Finger nails should be trimmed so as not to injure your opponent. Stickum/rosin/chalk are permitted.
- 5- Back pressure to the extent that it pulls your opponents arm across the marked center of the table will not be allowed. This infraction will be deemed the same as a false start.
- 6- Anyone with long hair will have to have their hair restrained in some fashion. Head bands are permitted but not hats.
- 7- Shoulders will be kept square to the table. They may slope to either side before the start.
- 8- There will be a hand width between the shoulder and forearm of each competitor as well as between the chin and hand prior to the start.
- 9- Referees are not there to use force or wrestle with competitors. A referee will lightly touch competitor's hands to see that they are properly aligned, wrists straight and arms centered to the table top.
- 10- The signal given by the Head Referee is "Ready...Go!" in an unspecified cadence. At the end of the match the referee will say "Stop" and indicate the winner by raising his arm towards him/her. All effort must be made by the referee that the competitors are aware the match is stopped.
- 11- A pin is when any part of the natural wrist line to finger tips, touches or goes below the touch pad.

19- **UNIVERSAL WORDS**

□ **Each competitor should know the following words.**

Ready go	Knuckles	Elbows down	Wrist	Shoulders
Stop	Warning	Winner	Dangerous position	
Referees Grip		Back	Thumb Down	Don't move
Center	Dangerous position	Grip	Strap	Foul
			Over	Under

Competition Fouls: - Armsport Championships.

*Note: Two warnings will equal one foul.
Two fouls, competitor will lose that particular match.*

1-

If competitors fail to come to the table in the 60 seconds allotted they will be given a loss. Their name will be dropped to its proper slot, the same as a loss in an actual bout. If they already have a loss they would drop out of the tournament for that particular weight class.

2-

Competitors have one minute to “Grip Up”. If in that time, they have not gripped up, they will be given a “referee’s grip”. A referees’ grip consists of the following procedure;

Competitors’ hands are placed palm to palm by the referee, the thumbs are pushed down by the referee, the fingers are wrapped by the referee, first one competitor, then the other. As they are wrapped referee asks competitor if he/she wants their thumb covered or not. Thumb knuckles will be showing, forefingers level, wrists straight and arms centered. Competitors are not to move from this set up.

Examples of movement are fingers re-gripping, back pressure, bending wrists, early start or elbow lifting off the pad.

Any movement by any competitor will result in a **foul** being given against the one that moves.

3-

A **foul** will be given when a competitor’s elbow loses contact with the elbow pad. A competitor is considered to lose contact with the pad when:

- a) The elbow lifts vertically off the pad, no matter how insignificant, as long as there is clearance between the pad and the elbow. It is not considered an elbow **foul** if the elbow has lifted off the pad, but the competitor still has contact with the elbow pad with their triceps or their forearm.
- b) An elbow **foul** will be called if the competitor is riding on their triceps or forearms and the elbow extends beyond any side of the elbow pad.
- c) Any foul that occurs simultaneously with a foul by your opponent will be considered Coincidental, the match will be stopped and restarted and no fouls will be given.

4-

The referee will call one foul for “causing a slip out” when:

- a) A competitor lifts his/her fingers off their opponent’s hand prior to a slippage.
- b) A competitor close his/her fingers as to make a fist inside their opponent’s hand.
- c) A competitor in break wrist position and he/she pull his/her fingers inside his/her opponents hand, therefore the opponent is unable to hold his/her grip.
- d) Straps will be used when any match ends by way of a slip-out **not resulting in a foul**. A slip-out occurs when both competitors have lost complete contact with one another. The official must be certain of the circumstances preceding the actual slip out before calling a foul. If the official is uncertain as to who caused the slippage or it was caused by the actions of both competitors, then straps will be used and no foul will be given.
- e) When straps are employed, the officials will ask competitors to place their elbows to the back of their respective elbow pads, place their hands palm to palm, fingers extended and thumbs up. Opposite hand will grip hand peg. In this position the strap can be quickly installed. Only the official can adjust the strap. Competitors may ask to loosen it or move it if it’s uncomfortable. The strap cannot be lower than 1" below the natural wrist line.
- f) After the strap is installed, competitors may take their grip and place their elbow to their choice of position.
- g) If a competitor intentionally slips out during the match in a losing position (losing position is determined by being more than 2/3 rd of the way down to the pin pad), the competitor will lose that particular match. Any intentional slip is an automatic **FOUL**.

5. WARNINGS

- a) Any early movement with shoulders, arm, hand or fingers will be a **warning** unless competitors are in a referee’s grip. Then it would be a foul.
- b) If one competitor is causing a delay “locking up” the referee will give the offender a **warning**.
- c) Letting go of the peg will result in a **warning** being called to the offender, without stopping the match. If an advantage is gained prior to re-gripping the peg, the match will be stopped and the offender will be given a **foul**. Contact with the peg must be above the table. One armed or one hand persons do not have to grip the peg.

6-

- a) Competitor's shoulder must not cross the "centerline" between pegs during competition. This will be a **FOUL**.
- b) Competitor cannot use any other part of the body to pin their opponent such as chin, shoulder or head. A **FOUL** will be given.
- c) Intentionally pushing of your own hand into an opponents shoulder will result in you getting a **FOUL**.
- d) When a competitor starts to put themselves in a "break arm" or "dangerous position", the referee will caution the competitor loudly so that the competitor understands the caution. Referee will instruct the competitor to face their competitive arm, so as to keep the hand, arm and shoulder in a straight line. Competitors must never force their shoulder inwards, ahead of their arm or hand, towards the table.
- e) Competitors cannot drop the competing shoulder below the level of the elbow pad when in an neutral or losing position. This will be considered a dangerous position.
- f) Any obviously intentional action that causes your opponent to get a foul will result in no foul for the opponent and you receiving the foul instead. Example obviously intentionally pushing your opponent off the back of the elbow pad.

7-

30 second rest is permitted after a **FOUL**.

8-

Foul language, poor sportsmanship or abuse towards an official will result in a **FOUL**. If it continues, competitor or official will be barred from the tournament.
